## Accidental Death and Invalidity Insurance (K)

Special conditions supplementary to the GCI  
Edition 01.2023

### Contract

#### **Purpose** *K art. 1*

We provide benefits for the physical consequences of accidents and misadventure.

#### **Cancellation** *K art. 2*

You may cancel the insurance by giving notice in writing or in another form that can be proven by text at the end of any month.

### Benefits

#### **Table of benefits** *K art. 3*

##### Death

- 1 The insured death capital sum is paid if death results either immediately after an accident or within five years of the accident date.
- 2 The designated beneficiaries are entitled to claim the benefits. If no sequence of beneficiaries has been designated, the legal order of succession applies excluding the body politic. If there are no rightful claimants the company pays the funeral costs.

##### Invalidity

- 1 Where permanent invalidity is anticipated we pay the insured capital commensurate with the degree of disablement according to the following terms.
- 2 The invalidity indemnity is paid out as soon as the extent of permanent disablement can be determined, but at the latest 5 years after the date of the accident.

#### **Degree of disablement** *K art. 4*

- 1 The degree of disablement is calculated in percent as follows (scale for each body part):

Disablement	Degree in %
Loss of both arms or hands, both legs or feet, one arm and one hand and simultaneously one leg or one foot, total paralysis, incurable mental disorder precluding all rational behaviour, total blindness.	100
Upper arm	70
Lower arm	65
Hand	60
Thumb with metacarpus	25
Thumb, metacarpus retained	22

One leg at the shin	50

One big toe	8
Other toes, each	3
Sight in one eye	30
Sight in the second eye for individuals with only one eye	70

<sup>2</sup> Complete loss of use of limbs and organs is counted as loss of the same.

<sup>3</sup> Partial loss or partial loss of use results in payment of a lower percentage of the total.

<sup>4</sup> In cases of impairment of health not listed above, the degree of disability is determined on the basis of a medical examination with reference to the above percentage table; **claims for psychic and nervous disorders can only be honoured if injury has occurred to the physical nerve system.**

<sup>5</sup> If several parts of the body or several organs are affected by an accident, the percentages are totalled. The total degree of disability can never amount to more than 100 %.

<sup>6</sup> We pay the following for serious permanent disfigurement of the human body (aesthetical injuries such as scarring) resulting from an accident for which no invalidity capital payments are due but, because of the psychological burden of the injury, limit the insured individual's economic or social prospects: 10 % of the contracted invalidity capital in the case of facial disfigurement; 5 % of this sum for disfigurement of other normally visible body parts.
