Duties

**Gatekeeping EASY art. 7**
Always consult the telemedical provider first if you have any medical problems. The telemedical provider determines the clinical pathway to be taken and you are obliged to adhere to the instructions given. Treatment (including further treatment and follow-up consultations) by family doctors, specialists or hospitals is provided subject to approval by the telemedical provider. Medication should only be obtained from the pharmacist specified by KPT other than in cases where an urgent initial supply is required. Generic drugs will be issued instead of original preparations provided there is no medical reason to do otherwise. Medical aids and devices should be obtained from the supplier stipulated by KPT.

**Exceptions EASY art. 8**
You do not have to consult the telemedical provider first in any of these cases:
- In emergencies
  An emergency is deemed to have occurred if the situation of an individual is assessed by himself or herself or by a third party as life threatening or as one requiring immediate treatment. Your telemedical provider should be notified as soon as possible after emergencies.
- In the case of gynaecological examinations and obstetric care
- In the case of examinations carried out by an ophthalmologist or dentist

**Adherence to the system**

**Non-adherence to the system EASY art. 9**
If you do not adhere to the stipulations of EASY art. 7, KPT can initiate the sanctions mentioned hereafter.
- Curtail legal benefits by 50 %
- In repeated cases, immediate exclusion from the model of insurance can result. It then becomes impossible to change to another special model of KPT insurance until the end of the following year.

**Second opinion EASY art. 10**
If you do not agree with the clinical pathway proposed by your telemedical provider, you can request a second opinion from another doctor. KPT puts you in touch with specialists and reimburses the costs for the second opinion if this results in different findings.

**Duty to notify EASY art. 11**
To facilitate the coordination of benefits you have to notify the telemedical provider or KPT about any accidents for which costs are accepted by the UVG insurer.

**Final provisions**

**Data protection and exchange of data EASY art. 12**
All employees of KPT are subject to the obligation to maintain professional secrecy in compliance with Art. 33 ATSG and other legal and regulatory stipulations on data protection. KPT and the coordinating service provider exchange data while adhering to the legal stipulations of the ATSG, the KVG and the Federal Act on Data Protection (FADP) as required to implement the contract and to check that the conditions of the model of insurance are adhered to. If necessary, sensitive personal data will also be exchanged within the framework permitted under law.
