You do not need to consult the medical practice first in any of these cases:
- In emergencies
  - An emergency is deemed to have occurred if the situation of an individual is assessed by himself or herself or by a third party as life threatening or as one requiring immediate treatment. Your medical practice should be notified as soon as possible after emergencies.

- In the case of examinations carried out by an ophthalmologist or dentist

**Adherence to the system**

**Non-adherence to the system *PLUS art. 12***

If you do not adhere to the stipulations of PLUS art. 10, KPT can initiate the sanctions mentioned hereafter:
- Curtail legal benefits by 50 %
- In repeated cases, immediate exclusion from the model of insurance can result. It then becomes impossible to change to another special model of KPT insurance until the end of the following year.

**Second opinion *PLUS art. 13***

If you do not agree with the clinical pathway proposed by your medical practice, you can request a second opinion. KPT puts you in touch with specialists and reimburses the costs for the second opinion if this results in different findings.
